Notes:

#This is a unique total, e.g. home care providers may be included in more than one state/territory, but are only included once in this total.

*This is a unique total. If the same providers are included in the 'Residential care (non-flexible)' column and the 'Home care (non-flexible)' column, they are counted only once in this total.

1 Excludes: Multi-Purpose Service (MPS) Program, National Aboriginal and Torres Strait Islander Flexible Aged Care Program and Innovative Pool Program Services. Home care services are identified by the state/territory in which the service is based.

2 Multi-Purpose Services (MPS) Program, National Aboriginal and Torres Strait Islander Flexible Aged Care Program Services and Innovative Pool Program Services provide residential and home care places.

3 Following the Increasing Choices changes on 27 February 2017, places for the Home Care Packages Program are now assigned to consumers and not to services. Correspondingly, the home care services counted no longer have operational places, however the services were operational at the time of the stocktake. These figures exclude Multi-Purpose Services (MPS) Program, National Aboriginal and Torres Strait Islander Flexible Aged Care Program and Innovative Pool Program providers.

The location of a provider is identified by the service delivery state/territory of the residential facility or home care service it owns.
